

I Should Be Sleeping

Sea Lions

I never knew there were such great movies on TV at 3 a.m.
I'd never guessed that at midnight Tuesday, I could have pizza ordered in
I've never been a real night owl but these days I'm all turned 'round
There's only one thing I'm sure of right now I should be sleeping instead of keeping
 These late hours I've been keeping
 I've been pacing and retracing
Every step of every move Even though I'm feelin' so right
 I'm so happy still I know
I should be sleeping instead of dreaming
About you I never knew that I was funny till I went and made you laugh
Never liked a girl to call me honey but you did and I liked that
I keep thinking about your smile, trying to read between the lines
Looks like I'll be up for awhile When I should be sleeping instead of keeping
 These late hours I've been keeping
 I've been pacing and retracing
Every step of every move Even though I'm feelin' so right
 I'm so happy still I know
I should be sleeping instead of dreaming
About you After just 3 dates and one great kiss
It's way too soon to be obsessing like this I should be sleeping instead of keeping
 These late hours I've been keeping
 I've been pacing and retracing
Every step of every move Even though I'm feelin' so right
 I'm so happy still I know
I should be sleeping instead of dreaming
About you Dreaming about you
I should be sleeping dreaming about you
I'm dreaming about you, yeah
