

Together Someday

Hepcat

I know that you see me staring at your pretty smile
You hypnotize me girl, I want you in my life
I'm tired of playing these games,
And if you really feel the same
Let's stop right now and cut to the chase
Because I know that we'll be together someday.

I know that you see me staring in your soul
You mesmerize me girl, I want to lose control
I've never met someone so right
Who understands my complicated life
Just stay right there and never leave my sight
Because I know that we'll be together someday.

But I know that we'll be
Together someday...
