Step Into the Light

The Afghan Whigs

Whenever the light shines
And the stillness is shaken
And the drug of your smile has gone
And left me aloneI need it bad, I need it now
Won't you come and give me some?
I need it sweet, baby please
Won't you answer the phone?Step into the light, baby
Just give me the word and I will begin
Step into the light, baby
And see the trouble I'm inThe light has gone
My love has gone
The good times have gone
AwayI have to ask, I need to know
Was it ever love?
I need it sweet, baby please
Won't you come and give me someStep into the light, baby
Just give me the word and I will begin
Step into the light, baby
And see the trouble I'm in, I'm in
