

Dark Water

Dale Earnhardt Jr. Jr.

No one knows what it was that made them go
Explore the dark, dark water
Your flashlight won't light as much as you would hope
When you're in the dark, dark water
All you have are the memories you'll change
In the dark, in the dark Maybe you were always drowning (so far)
And you just now realize that you were (so far down)
Can the sun reach down to warm your body, love?
There's creatures there we've not seen yet so beware
When you're in the dark, dark water
If you rise too fast your lungs will just collapse
In the dark, in the dark Maybe you were always drowning (so far)
And you just now realize that you were (so far down)
Can the sun reach down to warm your body, love? Dark, dark
Maybe you were always drowning (so far)
And you just now realize that you were (so far down)
Can the sun reach down to warm your body In the dark, dark, dark water
