

No Joke

Shakira

I'll never die
And you know that it's no Joke
Woo oooh
I'll let you know
And in that you'll never know
Woo ooohAnd it hurts and I cry
And you're leaving with my heart
I can live but you know
I'll obey the original
I got to know the creation
I got a single questionBelive in love
Don't you know that is no joke
Ooooh
I've got to learn
But you know that is no joke
OoohI, I, I, II'll never die
And you know that it's no joke
Woo oooh
I'll let you know
And in that you'll never know
Woo ooohMend my heart I can live
But you never let you go
I'll go look all over
But you never let me know
I got the love connection
You got a single questionbelive in love
Don't you know that is no joke
Ooooh
I've got to learn
But you know that is no joke
OoohI, I, I, IIm alright
Dont you know
I could never let you go,
Im allright
but you know its not my fault
Its not my fault
you know it
I got to see you HoneyBelieve in love
but you know that is no joke,

Ooh
I've got to learn,
but you know that its no joke
Ooh
Believe in love
but you know that is no joke,
Ooh
I've got to learn,
but you know that its no joke
Ooh You can't run, you can't hide
