Swimming Pool

Legowelt

Swimming pool
My head's been lying dormant like a sleepy little mouse
What I have inside me it's enough to fill a house
Don't get maudlin on me cause I'm not fit for it
I'd make you another offer will it do the trick
All my days inactive will be justified
Awaken from a slumber to a rollercoaster ride
Don't get wise to everyone and everything
Leave a little room for some naivetÃ©
To say that we will never part
And you will always have my heart
Is something that I can't deny
And you must never ever try
To go and lead a separate life
It's something I will never do, without you

Don't get wise to everyone and everything
Leave a little room for some naivetÃ©
To say that we will never part
And you will always have my heart
Is something that I can't deny
And you must never ever try
To go and lead a separate life
Is something I will never do, without you
Don't get wise to everyone and everything
Leave a little room for some naivetÃ©
Swimming in a pool of all clear
Swimming in a pool of all clear
