Used And Abused

Da Hool

Last night I picked up the phone
Late call said you were alone
Crying to me about all the things that we said
Apologized for your ways
Said you hadn't slept in days
Said that you need me
And it was just a phrase

So i come back opened my mind
Decided to give you the time
To make it up to me and not turn away
But then again to my surprise
Fooled me once more with your disguise
I should've listened to what my friends had said

All the lies you fed to me
You keep messing with me
You keep messing with me
Promises you never keep
You keep messing with me
You keep messing with me

You said you want me to stay
That I can't leave you no way
But then you run away when
I come knocking on your door
Suddenly want me to leave
Can't stand to be beside me
Used and Abused me
But I won't be coming back no more

Now weeks had passed you left my side
Left all my thoughts of you behind
No use in being miserable or depressed
Sometimes I see you walking by
But never brother to say hi
Don't worry to get caught up this mess again

All the lies you fed to me
You keep messing with me

You keep messing with me
Promises you never keep
You keep messing with me
you keep messing with me

You said you want me to stay
That I can't leave you no way
But then you run away when
I come knocking on your door
Suddenly want me to leave
Can't stand to be beside me
Used and Abused me
But I won't be coming back no more

What a mess
What a mess
What a mess we have made
Selling lust
Off as love
But it's just not the same
What a mess
What a mess
What a mess we have made
Let you make
Me the fool
Won't let it happen

You said you want me to stay
That I can't leave you no way
But then you run away when
I come knocking on your door
Suddenly want me to leave
Can't stand to be beside me
Used and Abused me
But I won't be coming back no more

You said you want me to stay
That I can't leave you no way
But then you run away when
I come knocking on your door
Suddenly want me to leave
Can't stand to be beside me
Used and Abused me
But I won't be coming back no more
But I won't be coming back no more

But I won't be coming back no more
