

My Everything (Bsharry Remix)

Noelia

Ohh yeah

Uhh huhh

Oh, oh yeah

Uh huh

Uh huh

Oh yeah

Why can't we just be together

Why can't we just last forever

All I need is you

To make my dreams come true

I think you baby all the time

no matter what can't get you off my mind

What would I do without you in my life

Your the reason why I don't sleep at night

My everything

Your the love of my life

That I just can't live without.

Everything.

What you mean, mean to me. yeahh

My love my love

My love my love

My love my love

My love my love

Boy you'll never have to wonder

If my love is growing stronger

All you need to know

Is I'll never let go

I think about you baby all the time

No matter what can't get you off my mind

What would I do without you in my life

Your the reason why I don't sleep at night

My everything

Your the love of my life and I just can't be without

Everything what you mean, mean to me, yeahh

My love my love

My love my love

My love my love

My love my love

(what would I do without you)

All my love for you
I'll give it all to you
I'm not afraid to say how i feel
I've gotta let you know
Your the love of my life
And I just can't be without...
Your the love of my life that I just can't be without.
My love my love
My love my love
My love my love
My love my love
