Crescendo (feat. MYLK)

Muzzy

(Everybody, let's go)
(Jump up the place!)
No freedom, mislead them
Ride with it, we don't need them
Gonna make it - gonna make nobody left to be dead
Over takin', over takin', bass is my first breath
Do you hear, we gettin' near
There's a virus coming to eat ya
Gonna make it - gonna make nobody left to be dead
Over takin', over takin', bass is my first breath
Rise it up
We go higher (higher)
We catchin' fire
Rise it up
Left to be dead, le-le-left to be dead
Bass is my first breath
[Repeat the previous two verses once]
Rise it up like an endless crescendo [x4]
Rise it up [x9]
Rise it up like-
Jump up the place!
Rise it up [x3]
Rise it up like an endless crescendo
Rise it up [x10]
Rise it up [x3]
Rise it up like an endless crescendo
