You're On My Mind

Plug In Stereo

Took a left at evergreen street
to the house with the sycamore tree
It'll always be yours to me,
but you're long gone nowSaw The Marquis at the Paris Theatre
Thought of shows that we used to see there
Tell me how you remember me
Am I on your mind?I never called, never sent a letter
Through mic I'm trying to say it better
I've been here since we were togetherBut you're on my mind tonight
You're on my mind tonight
You're on my mind tonight
I could never find the strength to shut you out,
Even if I tried
You're on my mind tonightWe would talk for hours straight
Staying up, didn't care how late
You still keep me wide awake,
Even though you're gone now
I used to see you every day
How did we break away?
I wonder what you say
Am I on your mind?I never called, never sent a letter
through mic I'm trying to say it better
I've been here since we were togetherBut you're on my mind tonight
You're on my mind tonight
You're on my mind tonight
I could never find the strength to shut you out,
Even if I triedI left the best of me in the memories
I can only see in you
But you're on my mind tonight
You're on my mind tonight
You're on my mind tonight
I could never find the strength to shut you out
But you're on my mind tonight
You're on my mind tonight
You're on my mind tonight
I could never find the strength to shut you out
Even if I tried
