

Falling in Love

Taio Cruz

It must be love because we are too afraid to say
It must be love and so we paint everything in gray
Let's not lose this chance, hold onto my hands
Let's not waste this time 'Cause today is a great day for falling in love
'Cause today is a great day for falling in love, falling in love It must be hard to know that we'll never be the same
It must be hard to take this honored leap of faith
Let's not lose our way, let's not wait to say
How we feel inside 'Cause today is a great day for falling in love
'Cause today is a great day for falling in love
Falling in love, falling in love, falling in love, falling in love
'Cause today is a great day for falling in love, falling in love When you're falling, falling just don't let go
When you're falling, falling just don't let go
Let's not lose this chance, hold onto my hands
Let's not waste this time 'Cause today is a great day for falling in love
'Cause today is a great day for falling in love
Falling in love, falling in love, falling in love, falling in love
'Cause today is a great day for falling in love, falling in love
