The World

Keb Darge

Close your eyes
Were heading to the other side
Close your eyes
Were heading to the other sideIve been going through some troubles
You know what we came here for
I just want to say I love you
And I dont want to hide no more
Love is like the darkest tunnel (Tell me you love me, yeah)
Who knows what we came here for (Touch me, touch me there)
And I just want to say I love you (Tell me you want me, yeah)
Cause I cant see the light no more (Take me, you want me there)So when you close your eyes
Were heading to the other side
Where its greener
Legends are made of believers
So could you hold your sign
So I can see you through the night
Freedom is a fever
Rather have her than leave herIve been going through some troubles (Tell me you love me, yeah)
You know what we came here for (Touch me, touch me there)
I just want to say I love you (Tell me you want me, yeah)
And I dont want to hide no more (Take me, you want me there)
Love is like the darkest tunnel (Tell me you love me, yeah)
Who knows what we came here for (Touch me, touch me there)
And I just want to say I love you (Tell me you want me, yeah)
Cause I cant see the light no more (Take me, you want me there)So when you close your eyes
Were heading to the other side
Where its greener
Legends are made of believers
So could you hold your sign
So I can see you through the night
Freedom is a fever
Rather have her than leave herClose your eyes
Were heading to the other side
Where its greener
Legends are made of believers
So could you hold your sign
So I can see you through the night
Freedom is a fever
Is rather have her than leave her

Yeah
