The Memory Will Never Die

Default

I whisper in your ear
The words you wanna hear
You feel the wind and it reminds you
It happens every time
You stop and close your eyes
You can't deny what lives inside you
Well, I know it's hard to see
What is meant to be
When yesterday is so far behind you
Deep inside your solo I'm always there
You made me believe, the day you surrender to me
The memory will never die
The love that you gave, I'll never throw it away
The memory will never die
The ties take a turn
Another lesson learned
I'm right here but still you wonder
Would you say that you need more
And it's known it was before
You're on your own and going under
Deep inside your solo I'm always there
You made me believe, the day you surrender to me
The memory will never die
The love that you gave, I'll never throw it away
The memory will never die
Whenever you wake up, whenever you gave up
All that you had for nothing at all
The bed that you lay in, remember you made it
And nobody's there to catch you when you fall
You made me believe, the day you surrender to me
The memory will never die
The love that you gave, I'll never throw it away
The memory will never die
You made me believe, the day you surrender to me
The memory will never die
The love that you gave, I'll never throw it away
The memory will never die
