

Winter's Come and Gone

[**Elizabeth Mitchell**](#)

Oh little red bird
Come to my window sill
 Been so lonesome
Shaking that morning chill
 Oh little red bird
Open your mouth and sing
 Been so lonesome
Just about flown away

So long now I've been out
 In the rain and snow
But winter's come and gone
 And a little bird told me so

Oh little blue bird
 Pearly feather breast
Five cold nickels all I got left
 Oh little blue bird
 What am I gonna do
 Five cold nickels
Ain't gonna see me through

So long now I've been out
 In the rain and snow
But winter's come and gone
 And a little bird told me so

[bridge]

So long now I've been out
 In the rain and snow
But winter's come and gone
 And a little bird told me so

So long now I've been out
 In the rain and snow
But winter's come and gone
 And a little bird told me so
