

# Spending Time

Christina Milian

(Laughing)

Christina Milian

Chuck B. Moore. Murder Inc. Come on!

Chorus

Spending time with you

(Yeah yeah yeah)

Makes me feel real good

(Uh uh uh)

All my days with you

Makes me say oooh ooh oooooh

(Yeah yeah yeah)

Darling when I look at you, it always makes me feel real good

And I know I kind of fell for you like I never thought I would

(Never thought I would)

And baby when I think of you it always brightens up my smile

(My smile)

So won't you come on over boy and stay with me for a while,

I love a night

Chorus

Spending time with you

(Yeah yeah yeah)

Makes me feel real good

(Uh uh uh)

All my days with you

Makes me say oooh ooh oooooh

(Yeah yeah yeah)

And baby when I'm feeling down it's always you that makes me right

It seems like you're the only one that can satisfy my appetite

And even when its pouring rain I can't wait to see your face

(See your face)

Because you bring my sunshine back and you just can't be replaced,

I love a night

Chorus

Spending time with you

(Yeah yeah yeah)

Makes me feel real good

(Uh uh uh)

All my days with you

Makes me say oooh ooh oooooh

(Yeah yeah yeah)

Rap:

Now listen

If I spend my days with you  
Is timing for me or are you genius  
Cause I spend my nights with you  
Only if you my man and not a one night stand

I got plans for loving you  
I follow your lead cause you all I need  
So easy, with that thug in you  
Take it slow we gonna pace the flow  
I know you're thinking devilish  
Cause the girl roll 1-8-7ish  
(Murder!) get it back  
My lifestyle not my wife style, boy  
I only hold mics on the TV,  
Hold hands when you need me

Believe me

See be always on guard  
But timing makes me love her

G-yeah

So put your ex's in check

They exit, I'm next

Accept it

My time in minds imperfected

Christina:

Everyday and every night  
I can't wait to have you by my side

(Have you by my side)

Have you by my side

(Have you by my side)

Everyday and every night  
I can't wait to have you by my side

(Have you by my side)

Have you by my side

Repeat Chorus 2x

Spending time with you

(Yeah yeah yeah)

Makes me feel real good

(Uh uh uh)

All my days with you  
Makes me say oooh ooh ooooooh  
(Yeah yeah yeah)
