

Sadie

Black Mountain

Don't run alone on the stadium walls cross the river.
Treacherous beasts walk in pairs hand in hand by the shore
Wisdom forgot them so they became trouble Hug your surroundings there's life in dead season
Chemical planes in the sky let the babies run wild
Things became vulgar when we became silence
Please Sadie oh won't you come down it's time to come home Marry me maiden and become my companion
Together we'll fly on the planes like nuclear suns
No faulty resemblance, the devil is dressed as.
Please Sadie oh won't you come down, it's time to come home
Please Sadie oh won't you come down, surrender your throne
