Poison Idea

Alone with pain, I thought I'd made a friend
Why do you leave now is this what you've planned
Wait your turn it's a long time before you'll breathe
Stay underwater and tell me are you freeCannot complain the pain will stay here for today
It seems to stay
Cannot complain the pain will stay
Cannot complainI want to be there for you
You can't seem to take this ride
I want to be there for you nowYou're not a shoulder if I'm the one to lean
As I see your red side when you always bleed
World is a pea no it don't revolve around me
If anything I revolve around the worldCannot complain the pain will stay here for today
It seems to stay
Cannot complain the pain will stay
Cannot complainI cannot complain the pain will stay here for today
It seems to stay
Cannot complain the pain will stay
Cannot complainI want to be there for you
You can't seem to take this ride
I want to be there for you nowCannot complain the pain will stay here for today
It seems to stay
Cannot complain the pain will stay
Cannot complainI cannot complain the pain will stay here for today
It seems to stay
Cannot complain the pain will stay
Cannot complainCannot complain the pain will stay here for today
Cannot complain the pain will stay here for today
Cannot complain the pain will stay here for today
