

Heart of Mine

Grouplove

Won't you find this little heart of mine
I buried it deep inside
Next to my lazy eye
Oh won't you be (Hey!)
Oh won't you be
In my life, talking about all the time
Everything feels so right
You're such a friend of mine Oh won't you be
Standing next to me
Yeah, won't you find
This little heart of mine
There's a fire across the bay
My mind was made of
There's a fire across the bay
My mind was made of
So won't you be
Standing next to me
Yeah, won't you find
This little heart of mine
