

# I Go Hard, I Go Home

## The Presets

Take me to the city lights  
Can go but not when I'm at home  
I need to go where I can see  
Can hear things in stereo Your own life is fraught with shame  
Mirrors in disco balls  
I never never never tense  
Think I understand it now I go hard, I go home  
I go hard, I go home  
I go hard, I go home  
I go hard, I go home Forget about the things you want  
Forget about your hopes and dreams  
Focus on the here and now  
Just think who we could have been Boys from the magic show  
There's girls from the magazine  
Take your opportunities  
And be who you wanna be I go hard, I go home  
I go hard, I go home  
I go hard, I go home  
I go hard, I go home It's tough times, we gotta to go  
Where nobody knows your name  
Leave all the things we knew  
And learn how to start again And learn how to start again  
And learn how to start again  
And learn how to start again  
And learn how to start again I go hard, I go home  
I go hard, I go home  
I go hard, I go home  
I go hard, I go home
