

# Please Don't Stop

[Keyshia Cole](#)

Please don't stop your love  
Please don't stop your love Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love Every time I'm around you make me feel like a  
lady amazing  
They could take pointers from you  
If they paid attention to the way you move Elegantly handling gently, never getting my love mistaken  
Knowing what you want from me exactly  
I know what I want from you, baby please Please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy, baby yeah No one has been more into it the way he feels  
And that's what turns me on, loving the way you do  
With the fact that you have more than one string attached  
It takes a real man to understand no one should come In between what means more to you  
To me you're a perfect example of what a man should be  
If only I could get a piece I'd make you so happy baby Please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy So please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy, baby yeah Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love Please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy So please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy Please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy Please don't stop loving me the way you do  
All I want is your smile around  
Boy you bring so much joy, baby yeah  
You bring me so much joy Please don't stop your love  
Please don't stop your love Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love  
Please don't stop it, baby don't stop it, baby don't stop your love
