Shallow End

Murmansk

Driving home now we got away
Here's to our future at least that's what they say
Pouring rain all through my head
Makes me wonder if I'd be better of dead
I'm through feeling deeply
Let's dive into the shallow end
In control now of my defeat
We've mistakes and that we're bound to repeat
I'm through the feeling deeply
Let's dive into the shallow end
I'm through the feeling deeply
Let's dive into the shallow end
You know it's time to see things clearly
Let's dive into the shallow end
I'd love to drive Ferrari
I'd love to have it all
I'd love to walk the tight rope
I'd love to see you fall
