Wither Away

Cedron

Is it all just a shape
A twist of fate, that leaves me open
Will it all fade away
From my life and leave me broken
It's all just game
As you left me here to wallow
It's all been a fake
And it's hard to swallow
And as I wither away and die
Tomorrow's just another day to cry
I wither away and die
Clip my wings, without you I can't fly
Can't fly, can't fly
What if life were a dream
Would you be there waiting for me
Suicide in a sleep
I'd rather die and have you miss me
And it all went away
The pain of watching you deny me
I've fallen again
Inside
And as I wither away and die
Tomorrow's just another day to cry
I wither away and die
Clip my wings, without you I can't fly
And as I wither away and die
I wither away
I can't get away from myself

(So far)
I can't get enough of your love
(I can't escape)
I can't get away from myself
(So far)
I can't get enough of your love
(I can't escape)
I can't get away from myself
(So far)
I can't get enough of your love

(I can't escape)
I can't get away from myself
(So far)
I can't get enough of your love
(I can't escape)
And as I wither away and die
Tomorrow's just another day to cry
I wither away and die
Clip my wings, without you
And as I wither away and die
Tomorrow's just another day to cry
I wither away and die
Clip my wings, without you I can't fly
And as I wither away and die
Tomorrow's just another day to cry
I wither away and die
Clip my wings, without you I can't fly
Fly, fly, fly, fly
