Crazy Cool

Tone Damli

Sitting, chilling, thinking about you, babe
You're like a long, cool glass of lemonade
Bitter, sweet and I want you so bad it hurts
You complete my life and you quench my thirst, sexySexy feelings just come over me
Playing with my dress like a summer breeze
Gentle as the touch of a falling leaf, oh yeah
You open me up to love now I gotta believe, gotta believeNothing's too good for my baby
Anything you want, be free
It's the least that I can do
What you've given me, given me'Cause I'm cool, crazy cool
Crazy cool with you
In this groove, crazy groove
Baby act a foolHey, I'm cool, crazy cool
Crazy cool with me
In this groove, crazy cool
Everything you need, sexyLaying in the grass, writing poetry
Looking up at the midnight sun when you're making love to me
You showed me just how cool, crazy cool can be
Now I know the meaning of ecstasy, ecstasyNothing's too good for my baby
Anything you want, be free
It's the least that I can do
What you've given me, given me'Cause I'm cool, crazy cool
Crazy cool with you
In this groove, crazy groove
Baby act a foolHey, I'm cool, crazy cool
Crazy cool with me
In this groove, crazy cool
Everything you need, sexyYou open me up to love
Ooh, I gotta believeNothing's too good for my baby
Anything you want, be free
You open me up to love
Ooh, I gotta believe'Cause I'm cool, crazy cool
Crazy cool with you
In this groove, crazy groove
Baby act a foolHey, I'm cool, crazy cool
Crazy cool with me
In this groove, crazy cool
Everything you need, sexy
