Wishful Thinking

Amanda Marshall

I will wait for you
Like I promised I would do
Though it brings me pain
And you always knew
What to say to lead me to
Believe it's not in vain
I was safe and secure when you were with me
But it only could last till the day that she
Took you back again
So I get by on wishful thinking
That when you come home
You'll wanna stay
Give me your hand
Save me from sinking
Another day of wishful thinking
Sometimes it's lonely
And faith don't come easy
And dreams begin to fade
Then you reassure me
How good it's gonna be
When you come back someday
You said you'd be back after you said goodbye
I have to believe that it wasn't a lie
And you'll be here again
So I get by on wishful thinking
That when you come home
You'll wanna stay
Give me your hand
Save me from sinking
Another day of wishful thinking
Yeah I was safe and secure when you were with me
But it only could last till the day that she
Took you back again
So I get by on wishful thinking
That when you come home
You'll wanna stay
Give me your hand
Save me from sinking
Another day of wishful thinking

Another day of wishful thinking
Give me your hand
And save me from sinking
