Vibin'

Rhythmicru

[Talk]
Just take a minute and catch the vibe
Just take a minute and catch the vibe
Just take a minute and catch the vibe
Just take a minute and catch the vibe

[Verse]
Coolin' in the studio you know how the story goes
Bobbin' our heads to the tune we're about to do
It's a laid back swing thang
The groove we feel is strong,

We need peace here to get it on
Having fun as we go, makin' sure the flavor shows
'Cause we're feeling alright
Takin' our time to free our minds and have a ball, ya'll

Everything's fine it ain't nothing to it cause
We're gonna do it all, what are

[Chorus]
We're just vibin' dancing the night away
Groovin', vibin', don't stop until the break of day

In the basement music just right
Nothing goin' down but the mellow sounds
Of Mr. DJ's turntable's goin' round
A mad sensation, a crew of women around sparks inspiration

To set something off the right way to hear the people say
That we're feelin' alright
Takin' our time to free our minds and have a ball ya'll
Everything's fine it ain't nothing to it
'Cause we're gonna do it all, don't you know that

We're just vibin' dancing the night away
Groovin', vibin', don't stop until the break of day
