All Over Again

Triumph

Questions of mind -- that words never answer
A test of the heart -- we face all alone
Are we wasting time -- I can't help to wonder
Still we go no -- I know that I can't let you go,CHORUS:
I'm in love with you (all over)
I'm in love with you (all over)
After all that we've been through
All over againDeep in the night lying beside you
It's so easy to feel the love that we share
Your body's so warm -- and I need to hold you
Close to my heart, tight in my arms, all of my lifeCHORUSYou are the one I keep runnin' to
Runnin' back to your arms
All over againCHORUS
