Ordinary World

Get Set Go

The sun can't remember how to shine
And the colors all have faded into shades of gray
There's no life in this hollow heart of mine
Ever since you went away
Close your eyes and feel me hold you
Can you lead me through this ordinary world
Let the sky cry restless rain to wash away the miles between us
'Cause without you it's just an ordinary world
If time could find a way to turn around
I would walk along the stars, till I was back at your door
Every word, every word is spoken but without a sound
And I found out what my heart is for
Close your eyes and feel me hold you
Can you lead me through this ordinary world
Let the sky cry restless rain to wash away the miles between us
'Cause without you it's just an ordinary world
Hold your breath, here I come, time to roll on mine
Take back, to your arms till we melt underneath the blinding sun
Can't remember how to shine
You're the life in this hollow heart of mine
Close your eyes and feel me hold you
Can you lead me through, through this ordinary world
Let the sky cry restless rain to wash away the miles between us
'Til love can come redeem us 'cause without you it's just an ordinary world
