Hole In My Heart

Alphabeat

You've made a hole in my heart
You've made a hole in my heart
You've made a hole in my heart
You've made a hole in my heart
And they can say what they want but it doesn't mean a thing
Only even if they went inside me and changed everything
This hole is nothing that a doctor can cure
It's not a disease, no, that's for sure
I was looking for a way to get close to you
But I got inside, I got inside
Nothing in the world could pull be back again
Now I'm inside, now I'm inside
You, you turn me upside down whenever you're around
You turn me upside down
You, you turn me upside down whenever you're around
You turn me upside down
You've made a hole in my heart
You've made a hole in my heart
You've made a hole in my heart
You've made a hole in my heart
And the gap that you have made goes deep inside of me
It's all used to invade, girl, you've got my guarantee
What this is you do to me, it's not been done before
I don't want you to stop, no, that's for sure
I was looking for a way to get close to you
But I got inside, I got inside
Nothing in the world could pull be back again
Now I'm inside, now I'm inside
You, you turn me upside down whenever you're around
You turn me upside down
You, you turn me upside down whenever you're around
You turn me upside down
All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you

All I want to do is to do something with you
All I want to do is to do something with you
All I want to do is to do something with you
You, you turn me upside down whenever you're around
You turn me upside down
You, you turn me upside down whenever you're around
You turn me upside down
