Take the Hand (Rough Cut)

Nazz

There's a hand that reaches
Reaches from a heart
One that isn't able
One that doesn't know just where to start
So it starts with the hands the one to tremble
Gives itself away
Strains to find a gesture
Something that the heart can easily sayTake the hand
It would mean so much to the heart to touch you
Play the part
Would you hold the hand, warm the heart
And take the heart that's waiting
Open it and find
There's a heart that's reaching
There's a heart that's reaching from insideTake the heart that's waiting
Open it and find
There's a heart that's reaching
There's a heart that's reaching
There's a heart that's reaching from inside
