

# Shadows and Lies

## Pure X

Shadows and lies all around me.  
What the hell is real, anymore  
And the door I swear I see it  
But all I can feel  
Fear ripping down my finger nails  
Fear from every side  
Days keep running the nights keep coming  
Nowhere left to hide

So im out here singing to strangers  
Im screaming to the skies  
And everything I thought I knew  
Is just shadows and lies  
I pretend that I cant see  
How I spend all my life chasing these fantasies

I open up my eyes  
(gibberishâ€™fucking lies)
