Follow You Home

Ufo

If you want
Me to do
Everything girl
Just for you
Change your mind
Telling me lies
Come and see you in the morning
Come and see you in the morning
Time after time
Told me lies
These are things girl
Which I despise
If I go wrong
In your eyes
Leave you girl, in the morning
Leave you girl, in the morning
As time goes by

Wish you had
Never treated
Me so bad
You know you're only going to want me back
Far away in the morning
Far away in the morning
If you want
Me to do
Everything girl
Just for you
Change your mind
Telling me lies
Come and see you in the morning
Come and see you in the morning
Follow you home in the morning
Follow you home in the morning
