

Feet Don't Fail Me Now

Utopia

Can't you see
She don't want you around no more
Can't you see
That her hands pointing at the door Feet don't fail me now
How could anyone stay
Anyone could see it's time to go away Time to take a powder
Open up your eyes
But it feels like my legs have been paralyzed Feet don't fail me now
Begging please don't make a fool of me
Feet don't fail me now
Please don't keep me where I should not be Feet don't fail me now
Stop pretending that you've gone to sleep
Feet don't fail me now
Begging please don't make a fool of me See your things piled in the hall
Turn around, there's a new picture on the wall
Feet don't fail me now We're the last ones to know
Anyone could see it's time for us to go
Time to hit the highway Nothing left to do
But it feels like my shoes
Have been crazy glued
