## Feet Don't Fail Me Now

## **Utopia**

Can't you see She don't want you around no more Can't you see That her hands pointing at the doorFeet don't fail me now How could anyone stay Anyone could see it's time to go awayTime to take a powder Open up your eyes But it feels like my legs have been paralyzedFeet don't fail me now Begging please don't make a fool of me Feet don't fail me now Please don't keep me where I should not beFeet don't fail me now Stop pretending that you've gone to sleep Feet don't fail me now Begging please don't make a fool of meSee your things piled in the hall Turn around, there's a new picture on the wall Feet don't fail me nowWe're the last ones to know Anyone could see it's time for us to go Time to hit the highwayNothing left to do But it feels like my shoes Have been crazy glued
