

# Like it or Love it (feat. Kid Cudi)

## Kreayshawn

got strawberry letter 27  
I got gold bananas engraved  
With my grandmothers title signature  
What you got?  
I got me a bunch of haters,  
Got me a bunch of faders  
Be like sayonara see ya laterrr  
Jordans on with the 808 drum  
And you bitches cant get none, Im just so done  
Dont say shit though, say you know? No one know you  
Im in your city like a mayor hoe, I lead by example  
your hoe lives by dismantle  
Dont tell a soul what we did just keep it stable  
Im dope, youre on dope  
Get it?  
Run and get the phone and you cant call for better  
I was on the phone tellin bitches that Im wetter  
I killed it once, I killed it twice and no I dont regret it  
Chorus:  
What u doin? Do just what you do  
You like it and then you love it Alright  
Do just what you do  
What u doin? Do just what you do  
You like it and then you love it Alright  
What u doin? Do just what you do  
You like it and then you love it Alright  
What u doin? Do just what you do  
You like it and then you love it Alright  
Do just what you do Alright  
Lookin to trip, not really just lookin for clues  
Im so important that one of my shoes is news  
Custom perches might make bitches take off their shoes  
How could I not, if I didnt then I wouldnt be scott  
Broken hearted it slowly rots, I hope she knows that hardees sucks  
Im goin back up, dont summon me again unless your ready for the pain  
You better step up, when you see me in the box, believe ib ball mayne  
Mags on mags on mags I dont have to push motherfucker whos bad  
Dont give a fuck about much, Im cool and calm just like my dad  
Niggas wanna live like us, niggas wanna floss like us

Fuck a bitch good like us, cool the cartier like us  
Cruise all night with me, niggas really in Paris

Chorus:

What u doin? Do just what you do  
You like it and then you love it Alright  
Do just what you do

What u doin? Do just what you do  
You like it and then you love it Alright

What u doin? Do just what you do  
You like it and then you love it Alright

What u doin? Do just what you do  
You like it and then you love it Alright

Do just what you do Alright

I be on that power

Maybe on that powder

All these bitches yeah they my bastards

They my bastards

They my bastards

Tell Ron Hubbard 50, Im like WTF!!

Outside raining kitties, my doctor knows whats up!

I be provin last dance, Im the only one  
in hate sky high shinin demon like the fuckin sun

Throw my shades now Im off on a world tour

Get less but a mind wanna give more

Boom boom for my girls on the dance floor

Pour some for the people, they work hard

Closer than her body, shes throwin a big party

Shes inviting Cudi, we beat it til its bloody
