

Epitaph

Badly Drawn Boy

Please, don't leave me, wanting more
I hope you never die
There's no need to say, why
Promise that you'll, try
To give me all you can
I'll never ask for more
There's new life through the door
A cradle rocks and falls
As new fruit fills the tree
Cements the melody
To signify we're free

Our troubles passing
Through decaying, simple times
I'll tread your trail with pride
C'est maintenant decide
I've nothing better
Please, don't leave me, wanting more
I hope you never die
There's no need to say, why
Just promise that you'll, try
(Try)
