You Know What To Do

The Beatles

When I see you
I just don't know what to say
I like to be with you
Every hour of the day
So if you want me
Just like I need you
You know what to do

I watched you walking by
And you looked alone
I hope that you won't mind
If I walk you home
And if you want me
Just like I need you
You know what to do

Just call on me
When you're lonely
I'll keep my love
For you only
I'll call on you
If I'm lonely, too
Understand I'll stay
With you every day
Make you love me more
In every way
So if you want me
Just like I want you
You know what to do

Just call on me
When you're lonely
I'll keep my love
For you only
I'll call on you
If I'm lonely, too
Understand I'll stay
With you every day
Make you love me more

In every way
So if you want me
Just like I want you
You know what to do
