

A Part of mine

BENZENE

A part of mine is going away

I don't know why they can't stay any longer

Brand new things are flowing to an empty part of mine

And my fulfilled part of mine will leave the same way

12 pack eggs sing merrily

Talking about their new eggshell

(I'm) always feeling to lose an important part of mine

The only way to keep my thought is to kill my thought that's getting old

Many people said "you are a little dumb"

But Why don't they want any thought of yours

Many people see those things are not for need

But where is your chief thing in your life?

I just don't want to be hung on every change

...To my part

A part of mine , New part of mine that

Kills me everyday

New part of mine make me puzzled everyday

It is erasing my valuation

To escape, To escape from the road will cure my mind

My mind will run to the past part of mine

Whenever get back those past part of mine

** I don't need any more things

Don't disturb ,I'll go my own way
