

Sadow (Shok's Scrambled Egg Mix)

[Haujobb](#)

Never leave me aloneI am shrill but no avail
You follow me still
The screen reveals my frown
Fills it with glee
Night never fails
To locate meYou appear
The only thing that is true
Appearing as a flash
Cutting right throughI realize
Its pleasing after all
You are the constant
I can recall
Complete my world
Fill me with delight
To have you about
Without a doubt
