

CalÃ-gula

ExxÃ³tica

Hush the neighbors hear you moanin and groanin
But I just can't help it specially when we be bonin

"I can take you fears away"

I could not believe it

Hey what's your name?

Beau doh doh dah

He's something like my favorite movie

Beau doh doh dah

I wanna see him again and again

Beau doh doh dah

He's like my disco - He's really groovy

Beau doh doh dah

When we go out I'm gonna let him in He wanna fight and make me feel like nothing

Never lovin but we're always fuckin

"I can take you fears away"

But I kinda miss them now that they've gone astray

Hey what's your name?

Beau doh doh dah

He's something like my favorite movie

Beau doh doh dah

I wanna see him again and again

Beau doh doh dah

He's like my freight train - He's really move me

Beau doh doh dah

When we go out I'm gonna let him in

Beau doh doh dah

He's something like my 7 eleven

Beau doh doh dah

He got me open like an all night store

Beau doh doh dah

He's like my blue sky - he's next to heaven

Beau doh doh dah

He give me some and then I want some more I could not believe it

Hey what's your name?

Beau doh doh dah

He's something like my favorite movie

Beau doh doh dah

I wanna see him again and again

Beau doh doh dah

He's like my disco - He's really groovy

Beau doh doh dah

When we go out I'm gonna let him in
