Ordinary Life

Malaki

I
So what if I don't know the next place
My mind supposed to go
No direction, no try
On paper, I am barely alive
No answer 'cause there's no call
There's nothing going on at all
I know when I sing this song
The words might not be too strong
And the world might not sing along
But who knows maybe they might
If I get the melody just right
If I get it right
'Cause I'm just singin' my ordinary life
I just wish the world would sing with me sometimes
Yeah, I am just singin' my ordinary life
I just wish the world would sing with me sometimes
And who knows what I might find
In the back woods of my mind
I'm not answering your call
Just lost in thought, that's all
And I know when I sing a song
The words might not be too strong
The world might not sing along
But who knows maybe they might
If I get the melody just right
'Cause I'm just singin' my ordinary life
I just wish the world would sing with me sometimes
Yeah, I'm just singin' my ordinary life
I just wish the world would sing with me sometimes
Sometimes
'Cause I'm just singin' my ordinary life
I just wish the world would sing with me sometimes
Yeah, I'm just singin' my ordinary life
I just wish the world would sing with me sometimes
Sometimes, sometimes
