Dead Sea Scroll Deception

Lock Up

Heading for corruption
No spirit or conscience
A bloodbath in waiting
On the threshold of peaceSabotage the history
Soak the pain in apathy
Hide the toll of misery
Camouflage democracyHeading for corruption
They prostitute the suffering
And bury our impulse
To see through the shameShatter their dependency
Massacre maliciously
Infiltrate stupidity
Murder their prosperitySpokesmen, the shallow eyes leer
Invoking, a structure of fear
Applauding, the hidden regime
Denouncing, logical schemesHeading for corruption
The tears of disbelief
Sanity smotheredDead sea scroll deception
Dead sea scroll deceptionSpokesmen, the shallow eyes leer
Invoking, a structure of fear
Applauding, the hidden regime
Denouncing, logical schemesHeading for corruption
The source and the catalyst
Insanity swallowedDead sea scroll deception
Dead sea scroll deception
