TOM ASPAUL

I realize, realize, we get a little bit wild sometimes
And I am numb, I am numb to what we have become sometimes
So slip away with me, stay with me, everything's okay with me right
Don't have to run, have to run, we can walk in the sun one last timeAnd it feels
Yeah, it feels so good
When you're here
We are near to lovePeople come, people go, but I'd like to get to know you now
What is wrong with me, wrong when we want you to belong to me now
So come away with me, stay with me, I will stop behaving right
And I don't have anything to tie me down tonightAnd it feels
Yeah, it feels so good
When you're here
We are near to love
Not giving up, no
If it feels so good
When you're here, so close
We are near to love.When I can't slow down
And I need you now
And I can't slow down
And I need you now
And I need you nowAnd it feels
Yeah, it feels so good
When you're here (when you're here 2x)
We are near to love
Not giving up, no (not giving up 3x)
If it feels so good
When you're, so close
We are near to love.Not giving up, Not giving up, Not giving up
Not giving up, Not giving up, Not giving up
Not giving up, Not giving up, Not giving upDon't have to run, have to run, we can walk in the sun one last time
