Time

Madi Diaz

My head before my heart gives up
Oh, better days, Ive had enough
Id turn it off if only I knew how to
My hands are sealed around the love I hold to.Time will move on
Time will move on.Always early, always late
I cant believe the words you say
They ring like stones thrown into a canyon
I feel the weight of each one slowly landing.Time will move on
Time will move on
Time will move on
Time will move on before I do.Your eyes give you away
They keep me waiting
Your eyes give you away
They keep me waiting.Time will move on.(Break)Time will move on
Time will move on
Time will move on
Time will move on before I do
Before I do
Before I do.
