

# Scared

## A1

I've walked the jungle  
fought a lion with bare hands  
the prince of darkness  
i'm a far better man I've crossed the desert  
never feared for my own  
when lightning strikes-I'll always go! Eye of the tiger, not afraid to attack  
left frankenstein-flat on his back  
that witches' magic, just ain't nothing to see  
cos' you're the one who cast the spell on me!! Break  
If you're looking for danger, here i come  
you better look out. it's just began!  
there's something that i want you to know!  
(ArGHHH) Chorus  
The one thing i'm scared of  
is losing hold of you!  
i get that shivers down my spine,  
Feel my body turning blue (so blue!!)  
This feeling is so frightening  
its driving me insane  
The one thing that im scared of  
is losing hold of you! The terminator-said he'd never come back!  
fight fire with fire that's a natural fact! Tell me your nightmare, and i will give you my dream  
I will protect you whenever you scream!! Because you're always there  
To let me know-sometimes we all get scared  
I'm telling you i can't let you go-Oh! Chorus  
I can feel it in the air, and my fever's going down  
There's a chill across the room uh-ooh-hoh! The one thing im scared of is  
Losing hold of you!
