

# Face Down In The Right Town

## Earlimart

So you did what you thought was right  
Oh giving up the fight  
The only way that we knew was wrong  
Got me hanging on and on  
Its everything you want  
Everything you need And the people who counted on  
Let you down one by one  
So be sure what youre asking for  
Telephone dont ring no more  
Its everything you want  
Everything you need Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow  
Well get back home Dont care who walks through the door  
The life I paid twice for  
Rearranging the furniture  
It reminds me of who you were  
Its everything you want  
Everything you need Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow Ooh in the right crowd  
Face down in the right town  
No good uptown  
But maybe somehow  
Well get back home Well get back home  
Well get back home  
Well get back home
