

# Time Machine

[w-inds.](#)

Well, hey there baby, do you want to make the scene?  
I said, hey there baby, do you want to make the scene?  
Aw, well, come on over baby, step into my time machine  
You better jump into my action, I'm gonna' make you feel right  
Aw, jump into my action, I'm gonna' make you feel right  
Don't worry 'bout tomorrow 'cause I'm gonna love you tonight  
Step into the front row, I'm gonna' show you how  
Step into the front row, I wanna' show you how  
Don't worry 'bout no time we can always come back to right now

Aw, I'm gonna give it to you  
When you wanna come back, we just turn about  
When you wanna come back, we just turn about  
But we ain't gonna come back, till there ain't no doubt  
Now don't it get good to you? Do you know what I mean?  
Said, don't it get good to you? Don't you know what I mean?  
Well, come on over baby, jump into my time machine
