

Secret Valentine (acoustic)

We The Kings

Soft kiss and wine what a pretty friend of mine
We're finally intertwined
Nervous and shy for the moment we will come
Alive tonight

Secret valentine

We'll write a song
That turns out the lights
When both boy and girl start suddenly shaking inside
Don't waste your time
Speed up your breathing
Just close your eyes
We'll hope it's not for nothing at all

Lay down be still
Don't worry talk they will
I'll be loving you until
Morning's first light
Breaks tomorrow
I'll take care of you tonight

Secret valentine

We'll write a song
That turns out the lights
When both boy and girl start suddenly shaking inside
Don't waste your time
Speed up your breathing
Just close your eyes
We'll hope it's not for nothing at all

When guilt fills your head
Brush off rise up from the dead
This is the moment that we
Will come alive
Brace yourself for love
Sweet love, secret love

We'll write a song

That turns out the lights
When both boy and girl start suddenly shaking inside
Don't waste your time
Speed up your breathing
Just close your eyes
We'll hope it's not for nothing at all
