Wasting No Time

Ricardo Clarke

Intro
Im in a fight for my life and with you I will die
So I got to separate myself from you..(So I'm)

chorus
Absolutely wasting no time on you this year
It gave me absolutely no shine it's true last year
Absolutely wasting no time on you
So I got to leave to preserve my dreams
Wasting no more time on you

1st verse
So You think the world spins around you
And my waking desire is to think about you
Your connection's not that important that I won't leave
It drained me for so many years,leaving is relief
Thought about leaving , the thought had crossed my mind
Filled with apprehension,I staggered everytime
Now I found the strength to move on
I got to leave to preserve my dream
Wasting no more time on you

Repeat chorus

2nd verse
First thing watch out for the snakes and fakes
People who hate,they dont want you be great
Second thing watch out for the backbiter
Who want to quarrell like a streetfighter
The next thing you gotta do
Make sure passion is inside of you
Cut' em off, you dont need them friends
And remember Im not settling
Got to cut off these fakers this year
So I made my mind up at the top of the year
Bad friends cost me last year
Cleaning out my closest
You were wasting all my time
When I had you in my life
It is hard but I got to let you go

Wasting No Time

Repeat Chorus

outro
Im in a fight for my life and with you I will die
So I got to separate myself from you
