

# Sunny In England

## 3 Colours Red

In my head, I can get so far away  
The colors here are bright, not black or gray  
And my imaginary friends, we always get our way  
The madness never ends and I just wanna stay But then I wake to seek escape, escape again Hey, hey, hey, this  
day has gone to fast  
With people like you, make it seem like it's the last  
Selfish, helpless and not a part of me  
You'll never make me what I don't wanna be Your words spread 'round the same dead town  
Dead town and streets You'll never see what I believe  
Till it's sunny in England, yeah, yeah And in the rain you soak the pain  
And grieve and all you do is grieve You'll never see what I believe  
Till it's sunny in England, yeah, yeah Sometimes I lose this memory  
Ain't it good to be in England ?
