

Every One of Us

[Rick Astley](#)

It breaks my heart to see you this way
It hurts my soul in all kinds of ways
There's a crack in the universe, 'cause things ain't rightBut it all ends tonight
Yeah, it all ends tonightThere's a fire
And it burns so bright
In every one of us, every one of us
There's a flame
It's our guiding light
In every one of us, every one of usEvery one of us
Search your heart, you find the truth
Search your soul, it's all in you
You can search the universe for the rest of your life
But all you find
Yeah, all you findThere's a fire
And it burns so bright
In every one of us, every one of us
There's a flame
It's our guiding light
In every one of us, every one of usThere's a fire
And it burns so bright
In every one of us, every one of us
There's a flame
It's our guiding light
In every one of us, every one of us
Is it too much to ask
Too much to give
Too much to change the way we live
Too much to lose
Too much to change the way we always chooseIs it too much for you
Too much for me
Too much to open our eyes and see
Too much to feel
Too much to fight
Too much to read in black and whiteToo much to ask
Too much to give
Too much to change the way we live
Too much to win
Too much to lose
But we can chooseThere's a fire

And it burns so bright
In every one of us, every one of us
There's a flame
And a guiding light
In every one of us, every one of us There's a fire
There's a flame
Gonna burn so bright
Ain't no need for shame There's a fire
There's a flame
It's gonna burn so bright
In every one of us
